IMPROVING THE HEALTH OF MOTHERS & BABIES

The Cincinnati Health Department is part of a city and county effort to improve pregnancy and infant health. The rates of stillborn (fetal) and infant death in Hamilton County are higher than in any other county in Ohio.

We are making changes to improve pregnancy outcomes and the health of our babies in Cincinnati and Hamilton County.

MAKING CHANGES TOGETHER

We would like to invite you to meet with one of our Cincinnati Health Department interviewers to share your experiences, ideas and suggestions.

Your story will be shared with a team of health professionals and community members who are working together to make changes.

Through your story, we can better understand the reasons behind fetal and infant loss in our community, and perhaps help future families avoid the tragedy of a loss.

CONFIDENTIALITY

Your name and the names of your doctor and hospital will not be shared with anyone. This information will be kept confidential.

CONTACT US

If you would like to call or have questions, we can be reached at: **513 357 7266**.

In the next few weeks, we hope to contact you by phone to see if you would like to share your story.
